HAWE North America is Moving!

Dear Valued Customer,

It is with great pleasure and excitement that we write to inform you that on September 27th, the HAWE North American headquarters in Charlotte, NC will open the doors to a brand new, larger and higher capacity facility located in Huntersville, NC.

Beginning September 27th, 2021, our new physical address will be:

**HAWE North America, Inc.
13020 Jamesburg Dr., Suite A
Huntersville, NC 28078**

Check Remittance address will remain the same:

**HAWE North America, Inc.
PO Box 602920
Charlotte, NC 28260-2920**

There will be no change to HAWE telephone numbers or email addresses.

Our new facility will provide ample space for increased inventory and assembly capacity to accommodate the growing and dynamic needs of you, our customer. In addition to the larger warehouse and production space, the new construction building offers the latest in energy efficient building material technologies to reduce our impact on the environment.

The HAWE team has worked hard for close to a year to plan and design the execution of this move in an effort to ensure little to no impact on deliveries. Rest assured, our team has worked to place the utmost importance in making sure customer orders are the priority and deliveries promised will be met on time (or even early).

Please continue to contact your Sales and/or Customer Service team directly for any urgent requests and we will continue to work hard, as always, on finding solutions for your most pressing needs.

As we near the date of our move, we will send a follow up reminder to let you know it is time to update your records.

If you have any questions or concerns, please feel free to reach out to myself, your HAWE Sales Person or your Customer Service team member and we will be more than happy to assist.

All the best,

Kristina Smith
CFO/COO, North America
HAWE Hydraulik

Robert Pettit
CEO, North America
HAWE Hydraulik
