

# Finance Business Partner to an international technical group

**Are you motivated by creating transparency in a complex and everchanging environment? Can you communicate Financial results clearly to business leaders and support data-driven decision making? And do you want to be part of the green energy transition and experience a company in rapid growth? Then you might be our new colleague!**

"Real numbers on time" must be a mantra of our new Financial Business Partner, who will support with numbers, calculations and data in connection with business development and commercial initiatives. You are responsible for the preparation of reporting and analyses, budgets and forecasts and you develop key figures to support the company's future development and strategy.

You will be working from our site in Albertslund and be part of the finance department of 5 people and you will report directly to the Head of Finance.

## **Your responsibilities are broad focused within Finance Business Partnering:**

- Prepare analyzes and follow up on P&L to Group, countries and departments and prepare Management reporting, Business Review material and reporting to the Board of Directors
- Support Business Units with development of analytics, models, and reports (PowerBi) and act as a sparring partner to the department's and management to ensure that finance is close to the business and is the go-to person for analysis and data requirements
- Preparation of 3-year plans, budgets and forecasts in accordance with group deadlines
- Supporting strategic decisions with finance perspectives
- Build PowerBI reports that supports and optimize the business. Together with the team agree on content, datasets, ensure standard templates and naming convention in accordance to agreed standards. Implement into the organization and ensure users are trained. Potentially drive implementation of PowerBi across the HAWE SE Group entities.
- Drive the calculation of performance pay targets and calculations of bonuses together with HR and head of functions.
- Ad hoc assessments of high-impact topics and ongoing support to the business and the rest of Finance to improve our ability to deliver on key strategic targets

## **Your profile**

- You have a financial background, e.g. Cand. Merc, Cand.oecon or HD/R
- You have 1-3 years of experience in a similar role, an advantage if from an international production company
- You have solid Danish and English skills
- You are comfortable working in Excel, PowerPoint, and databases, knowledge about PowerBi is an advantage but not a requirement
- You are solid communicator, both visual and in writing and you have solid stakeholder management skills

As a person you are good with numbers and good with people. You are early in your career and have a motivation to learn. You have a methodical mindset, and a genuine understanding of what improves value and to make the financial results relevant and useful for the end-user. With your structured approach to problems, you can create precise analysis from large amounts of complex and incoherent data. Further, you are a collaborator and enjoy having fun at work.

## **HAWE Energy Solutions A/S - your future workplace**

HAWE Energy Solutions has for many years developed and manufactured hydraulic system solutions. We are part of the HAWE Hydraulic Group, which is a growth-oriented group in exciting development both in Denmark and internationally. We are proud of our informal culture and work purposefully with employee well-being. We value community and collaboration highly, and you will be surrounded by fantastic and competent colleagues. We emphasize that our employees get the challenges and training needed for them - and thus the company - to constantly develop. You can read much more on [www.hawe.com](http://www.hawe.com)
