

It's YOU - setting things in motion.

Project Manager

Are you a skilled Project Manager with a high personal drive and the skillset to steer your projects to success? Do you want to be part of an ambitious team focusing on corporate development and bold strategies? Come and be a part of an international renewable energy company where the distance from thought to action is never long, and where you can take action on the large global wind turbine market

As **Project Manager**, you will be working on both smaller and large-scale projects as your skill levels expand. You will be balancing stakeholders on every level, creating incentives to scale and evolve your projects on an ongoing basis. Ensuring timely, budget-conscious, resource-efficient, and scope-compliant deliveries remain the central objective across our large international projects as well as the smaller-scale ones.

Tasks

- Analyzing new business opportunities and creating business cases
- Managing projects with a sharp focus on stakeholder management and teamwork
- Supporting the organization with project administrative tasks and processes
- Maintaining project overview as basis for project prioritization
- Reporting on project status and progress
- Facilitation of workshops and meetings
- Build close, strong relations to customers and colleagues

As a project Manager in HAWE Energy Solutions, you will play a pivotal role in supporting the company's strategic positioning, emphasizing our commitment as a global partner known for seamless collaboration and reliability in a rapidly developing global renewable market.

Your Profile

We are looking for a Project Manager who is motivated by both personal and professional development and have a strong drive for getting tasks and projects across the finish line.

You'll be a good match if:

- You have experience within Project Management (preferable 2-3 years of work experience) and have finished minimum a bachelor's degree.
- You are a strong problem solver, who focuses on finding solutions rather than dwelling on issues.
- You are open to new ideas and can easily adapt to changing circumstances
- You seek roles of increased responsibility and influence and take responsibility for actions, projects and people
- You have a positive mindset, are trustworthy, persistent and have good communicative and people skills
- Strong language skills in both written and spoken English is a requirement. Danish will be an advantage.

HAWE Energy Solutions A/S offers

A highly independent and challenging job among competent colleagues and the possibility of working with one of the major players in the wind turbine industry supporting the green transition. Your workplace will be in Albertslund. We offer a fast-paced workday in a global environment spanning across several countries, securing our place as frontrunners on the global market.

At HAWE we are proud of our employees. We value our employees' well-being, and aspire to be a tight-knit and supportive work place. You will also have health insurance, pension scheme, an active employee association and cultural and sporting events.

How to apply?

Would you like to make a difference with us? We look forward to receiving your application and CV, no later than August 31st, 2025 using this [link](#).

However, we reserve the right to call for interviews on an ongoing basis.

If you have any questions about the position, please feel free to contact Marija Thieden, Director Corporate Development and PMO on mobile +45 2715 6805
